KAITSEPIIRE

- ◆ Esmalt kinnitage puitkaared kruvidega kronsteini välimiste tükgede külge.
- ◆ Seejärel paigaldage kronsteini sisemised tükid kerise külge ülemise ja sellest järgneva traadi vahele.
- ◆ Lõpuks asetage kronsteini sisemine ja välimine tük vastamisi ja lukustage omavahel poldi ja mutriga. Piire ongi koos!

SAFETY RAILING

- ◆ First, fasten the wooden arches to the outer pieces of the supports with screws.
- ◆ Then place the supports' inner pieces to the heater between the upper and the following wire.
- ◆ Finally, place the inner and outer pieces of the support facing each other and fix them together with a bolt and nut. You are done!
